

Assignment 3 for MSAI Students

Submission date: 26/12/2024

Task:

Watch the provided video and reproduce the results using the linked GitHub repository.

Topic:

Synthesizing High-Quality Images from Text Descriptions using StackGAN

Resources:

- Video Tutorial: [Synthesizing Images with StackGAN](#)
- GitHub Repository: [StackGAN Implementation](#)

Instructions:

1. Carefully review the video tutorial for an understanding of the StackGAN approach.
2. Clone the GitHub repository and follow the implementation steps.
3. Generate results similar to those demonstrated in the video.
4. Submit your reproduced results along with a brief explanation of the process and any challenges encountered.
